Flipsters \$29.95

HEY girls, the next time you're packing light and need some flip-flops lighter and more compact than your Havaianas, it might be worth considering these rippers that fold away to almost nothing. Created in Australia, they come in three sizes, have a rubber sole, a slightly cushioned upper and a satin finish to the straps, making them ideal for a casual night out. Also perfect for the beach, long flights or – as a friend pointed out – at the races after a long day in heels.
